

<b>EXAM: ULTRASOUND PARACENTESIS</b> Imaging Department 330-596-7700 Scheduling 330-596-7187	
<b>INDICATIONS:</b>	If questions specific to your diagnosis please contact your physician. Paracentesis is a procedure to remove fluid that has accumulated in the abdominal cavity due to infection, inflammation or abdominal trauma. Paracentesis also may be done to drain the fluid as a comfort measure in people with cancer or chronic cirrhosis.
<b>CONTRA-INDICATIONS AND PRECAUTIONS:</b>	Please be sure to notify your physician and the imaging staff if you have any allergies, especially to local anesthetics such as lidocaine.
<b>HOW LONG WILL IT TAKE? WHERE SHOULD I GO?</b>	Patient needs to arrive 1 hour prior to the scheduled exam for necessary pre testing. Most likely you will be preregistered and you can go directly to the Imaging Department. When you enter the front of the hospital, located on State Street you will go past the waterfall down the main hallway. After you cross the second circular hall intersection, the Imaging comfort area is the first door to the right.
<b>PREPARATION:</b>	Patient should have nothing to eat or drink for 4 hours prior to the exam. If the patient was given an order (prescription) for the exam they must have that with them at the time of the exam. Patient should avoid taking anti-inflammatory medication 24-48 hours prior to procedure (ex: Advil, Motrin, ibuprofen, Aleve, naproxyn, etc), aspirin, plavix, coumadin, or any other blood thinners should be stopped prior to exam. Please be sure to discuss discontinuation or prescribed medications with your physician, they will tell you how many days prior to the procedure to discontinue you medications. Do not discontinue without consultation with your physician first.
<b>MEDICATION ISSUES:</b>	Take medication as usual. Bring in a list of meds.
<b>WHAT CAN YOU EXPECT:</b>	Blood work will be required 1 hour prior to the exam. During the exam there will be a gel placed on your skin in order to create an image. For certain areas the ultrasonographer will need to apply more pressure than others. You may be asked to hold your breath for short periods of time. In the area of interest, a local anesthetic will be used to numb an area. A needle is then placed to drain the fluid into a vacuum container. On occasion the fluid is sent for laboratory evaluation. If you have any questions you may call the Imaging Department at 330-596-7700. To change your appointment call scheduling at 330-596-7187.
